

DR DONG-KEUN SHIN, IOM

Hwa Shin Building, Suite 701, 705-22 Yuksam-dong
Kangnam-gu, Seoul 135-080, Korea

Dr Dong-Keun Shin was born 1959, Incheon South Korea. He received his B.S. in Computer Science from Seoul National University in 1981, his M.S. in Computer Science from Seoul National University in 1983, and his Ph.D. in Computer Science from Seoul National University in 1986. He worked for Samsung Electronics Co., Ltd. from 1981 to 1986, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1986 to 1991, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1991 to 1997, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1997 to 2000, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 2000 to 2003, where he worked on the development of the Korean text processing system.

PROFESSIONAL SOCIETY MEMBERSHIP, 1994-PRESENT

Member, Korean Computer Society
Member, Korean Information Society

Dr Dong-Keun Shin is a Senior Researcher in the Department of Computer Science, Seoul National University. He received his B.S. in Computer Science from Seoul National University in 1981, his M.S. in Computer Science from Seoul National University in 1983, and his Ph.D. in Computer Science from Seoul National University in 1986. He worked for the National Institute of Standards and Technology (NIST) from 1986 to 1991, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1991 to 1997, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1997 to 2000, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 2000 to 2003, where he worked on the development of the Korean text processing system.

RESEARCH INTERESTS

Text Mining, Text Classification, Text Summarization

Dr Dong-Keun Shin is interested in the text mining, text classification, and text summarization. He received his B.S. in Computer Science from Seoul National University in 1981, his M.S. in Computer Science from Seoul National University in 1983, and his Ph.D. in Computer Science from Seoul National University in 1986. He worked for the National Institute of Standards and Technology (NIST) from 1986 to 1991, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1991 to 1997, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 1997 to 2000, where he worked on the development of the Korean text processing system. He worked for the National Institute of Standards and Technology (NIST) from 2000 to 2003, where he worked on the development of the Korean text processing system.

DR DONG-KEUN SHIN, IOM

Hwa Shin Building, Suite 701, 705-22 Yuksam-dong
Kangnam-gu, Seoul 135-080, Korea

Dr Dong-Keun Shin was born on 13 June 1959 in Incheon in South Korea and is an Independent Researcher in Computer Science. He is married to Helen Chang and they have 2 sons. He was educated at the University of California at Berkeley and at the George Washington University. During his career he has worked as an Engineer/Analyst/Programmer for companies such as, BT Dialcom, Xerox, CBSI, SRA and Samsung Electronics. Among his many publications are "A Comparative Study of Hash Functions for a New Hash-Based Join Algorithm" and "A Sorting Method by Dong-Keun Shin". By writing letters to the world's academic communities, Dr Dong-Keun Shin has challenged to be the greatest computer scientist in the world since 1997,
