REPUBLIC OF KOREA

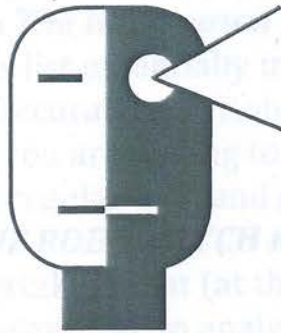

Dear Dr. Shin:
Welcome! You are now an important part
of an International Brain Trust of

THE ROBOWATCH® REPORT

Noble Robo-witnesses!

Best regards,

Dale Layman

Robowatch

An International Human Rights
Advocacy Group

*"For the future survival and
protection of mankind"*

**Spring
2012**

***"Never doubt that a small group of
thoughtful, committed citizens can change the
world. Indeed, it is the only thing that ever has."***

- - Margaret Mead

Dear Dr. Dong-Keun Shin :

Nov. 15, 2012

WELCOME! Welcome to your first copy of ***THE ROBOWATCH REPORT!*** You have a place on ***The Robowatch Witness List.*** Your continuing membership on this list essentially implies that you agree to serve as a "Witness" (or more accurately, a "Robo-Witness"). By being a "Robo-Witness," it means that you are willing to read and carefully consider information (by both regular mail and e-mail), that is published intermittently in ***THE ROBOWATCH REPORT.***

This is a charitable undertaking that (at this point) receives no outside funding. Therefore, we are free to analyze and, where appropriate, constructively criticize, many fast-moving developments. Our main focus will be upon the ever on-going developments in computing, robotics, artificial intelligence, and other high-tech activities.

Our chief goal is promotion of a wider education and awareness. We seek to provide learning, discussion, and enlightenment about the need to protect and preserve ***still-human*** values in the Age of the Machine. We are often going to be taking a so-called "Contrarian" Approach to these scientific and technological fields. By this, we mean an approach that is often "contrary" to popular opinion! Instead of mindlessly and uncritically accepting whatever latest gadget or innovation comes our way, we are going to critically eye it! ***Thus, you may be hearing things here, that you won't get anywhere else!***

This is a two-way street! So, I look forward to receiving your constructive feedback, interesting articles you have found, and suggestions! These can be sent either by e-mail, or by regular mail, to the addresses posted on page 1. And if you do not wish to serve as a Robo-Witness, please politely inform me!

I look forward, Dear Witness, to enjoying a long and mutually beneficial learning-and-discovery process with you!

*Best regards,
Dale Layman*

705-22 Yuksam-dong, Kangnam-gu
Seul 135-080
República de Corea

Dear Dr. Shin:

I am writing to you on behalf of National University of La Rioja's Rector, Dr. Enrique Daniel Tello Roldán. In relation to the letters and information attached herein, where the claim about being "the world's greatest computer scientist" is made, we need to make the following points clear to you:

- The National University of La Rioja (Universidad Nacional de La Rioja) does not endorse any of your theories or acknowledges your alleged world leadership in computer sciences.
- You are firmly requested to refrain from making any sort of reference to the National University of La Rioja, or Universidad Nacional de La Rioja, in your letters and press releases to the local and international communities.

You are hereby duly notified of the preceding statements.-

Yours,

Ing. Francisco Asis Filonzi

Speaking to the World from Oxford

Dr. Dong-Keun Shin
Hwa Shin Building, Suite 701
705-22 Yuksan-dong, Kangnam-gu
Seoul 135-080
Korea

"Every year the Forum reinforces something valuable; that we should be open to people of all nations, listen, learn, speak and appreciate the fullness of what life has to offer through the knowledge of others."

— The World Forum Federation

Dear Dr. Shin,

It was an honor to have you attend the 2012 World Forum at St. Catherine's College, Oxford, England. We were privileged to be there at a special time in St. Catherine's history, the 50th anniversary of the college.

We would like to express our appreciation for your participation in the symposiums and the special events. It is the goal of the Forum to bring delegates together from all over the world to meet and to share their talents and knowledge. We feel we have accomplished our objective from the many wonderful comments received.

We would like to remind you to send in your registration for the 2013 World Forum to be held at the Royal Sonesta Hotel, Cambridge, MA, USA, by **November 9, 2012**. If you require another registration form, please contact our office and we will be happy to send one to you immediately. If you register by that date you will be assured an invitation to lunch at the historic Harvard Club in Boston. Selections for speakers or chairpersons for the symposiums are made early so please return your registration form along with a synopsis of your presentation if you choose to participate in any sessions.

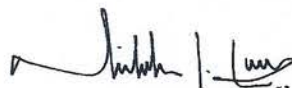

If you have any observations or photos to share concerning the 2012 World Forum, we look forward to receiving them and would be happy to include your comments in future newsletters and brochures.

We were pleased to have Michelle Musk this year to assist with the Forum and look forward to her participation again next year. We are greatly looking forward to seeing you again in 2013.

Sincerely,

Linda M. Kellander
ABI World Forum Director

Subject: a question about lectures

Dr Sir,

we have received your letter as of yesterday. Can you please tell us if you are also a lecturing professor, and if so, in what fields do you specialize in. What are your conditions on being a visiting professor etc.?

Is it possible to receive a CV that we can send to the interested faculties? Is there a place we can download some of your written work?

Waiting for your response.

All the best,

Liliana Lato

Dear Dr Shin:

In 1903, Swat Chuan Yin became the first student from China to graduate from the University of Toronto. Today, there are close to 6,000 students from the Asia-Pacific region studying at U of T, and more than 11,000 alumni who call this region home. We are writing today to invite you to join us in taking the next exciting steps forward.

The University's long-standing connections in Asia have flourished because of our academic and research partnerships, our success in attracting outstanding students, and the dedication and loyalty of the U of T alumni who live and work in this part of the world. Looking ahead, as a key part of Boundless: The Campaign for the University of Toronto, we are working hard to strengthen our Asia-Pacific ties.

The Boundless campaign is built on two major themes: preparing global citizens and meeting global challenges. Our close relationships in the Asia-Pacific region are vital to meeting these commitments – in particular, supporting student and faculty exchanges and increasing joint education and research programs.

On Saturday, October 13, 2012, U of T will host a gala dinner in Hong Kong to formally launch the campaign in Asia and to celebrate the important connections being built throughout the U of T community with our Asia-Pacific partners. The event is being organized by a committee led by Ms Daisy C.F. Ho (Rotman, 1990), Chair of the University of Toronto (Hong Kong) Foundation.

We would be delighted if you would attend the gala in support of our Asia-Pacific campaign. The event will provide a unique opportunity to reconnect with fellow alumni, to share updates on your work and life, and to learn about our ambitious and exciting plan to strengthen the global impact of the University of Toronto.

We would be most grateful if you would also consider sponsoring our gold or silver tables, to help us cover the costs of launching our Asia-Pacific campaign. Gala dinner details and a reply form are enclosed. We invite you to complete and return the form to us on or before Friday, September 28, 2012.

Thank you for considering our request for support. You and your fellow U of T alumni are crucial to our success as one of the world's greatest institutions of advanced research and education. We look forward to seeing you at the gala dinner!

Yours sincerely,

David Naylor

제목: About a new data structure "Atrain"

To

Dr. Dong-Keun Shin
Hwa Shin Building, Suite 701
705-22 Yuksam-dong, Kangnam-gu
Seoul 135-080, Republic of Korea

Dear Dr. Dong-Keun Shin,

I heard of you by name but I never got any scope to see you or to interact with you. I am a Professor in Computer Science working in India. The purpose of writing this letter to you is to offer a proposal to you for joint work and research publication in the area of the data structure "ATRAIN", provided you agree to work on this data structure. You have developed good new type of sorting/searching algorithms.

I would request you to please open the attachment-file of this email and find softcopy of a research paper of mine entitled HETEROGENEOUS DATA STRUCTURE "r-ATRAIN" published in the journal INFORMATION.

I am sure that using this data structure 'Atrain', we can improve your sorting/searching algorithms for multiprocessor systems with much faster complexity.

Waiting for your comment and valuable suggestions please.

With regards,

--- Prof. Ranjit Biswas
